

NAMIBIA

A thousand landscapes

Period: April 2026 | **Days:** 13 | **Budget:** CHF 3800

Description: A journey through Namibia, from the red dunes of Sossusvlei to the wild Atlantic coast. The route winds southwards from Windhoek, through the ghostly atmosphere of Kolmanskop and the silence of the Namib Desert, before heading northwards along the Skeleton Coast to Swakopmund and Cape Cross. The journey concludes in the north of the country, between Damaraland and the savannahs of Etosha National Park, the realm of African wildlife. An itinerary that alternates between desert, ocean and savannah, in one of the most remote and fascinating regions on the planet.
