

ESTONIA

The tranquillity of the endless forests and peat bogs

Period: September 2026 | **Days:** 8 | **Budget:** CHF 1800

Description: A relaxing journey through Estonia, amidst endless forests, peat bogs and vibrant colours. Setting off from Tallinn, a capital city that is as modern as it is architecturally fascinating, the journey takes you into the natural beauty of Lahemaa National Park, before continuing eastwards to Narva and on to Tartu, a lively university town brimming with things to discover, and finally to Pärnu. Thanks to the country's compact size, the driving stages are short and pleasant. The trip concludes with a final weekend in Finland's beautiful capital.
